After successful login, the main window of the AIS application will be available to you. *The Student Portal* provides simplified access to study data through selected panels. In the central part of the window, data about the student's current studies are directly available (*timetable, registration forms, final theses, ...*).

In the left part of the window, you can click to launch the AIS applications themselves as we know them from the universal AIS interface.

## SUBJECT EVALUATION REGISTRATION

From the menu in the left part of the window in the list of applications, select/click on **Study evidence** and then from the menu in the main part of the window launch the application **VSES017 Studies, registration forms, theses, state examinat.**

The **VSES017** application will open. At the bottom of the window is a list of enrollment forms for all academic years during which you were registered **as a student**. To register for evaluation for a subject (exam), click on a specific registration form (for the relevant academic year) and then click on the small arrow next to the runner icon (you can also achieve the same thing by right-clicking on the relevant registration form).
