

ENLIGHT CALLS 2024 INCUBATOR GRANTS, THEMATIC NETWORKS & ENLIGHT +

ENLIGHT is shifting up a gear. In order to encourage cooperation between staff and students of our universities, ENLIGHT launches a first set of calls for joint initiatives.

As of 2 April 2024, three calls are launched: Thematic Networks, Incubator Grants for future-proof education projects or ENLIGHT + small-scale initiatives. Each call targets specific types of actions.

The calls are open for teachers, researchers, students and professional staff members from all disciplines who are interested in setting up collaborative initiatives with peers from other ENLIGHT universities. Activities should be in line with the objectives and mission of ENLIGHT.
