

Synopsis of the description of the field (Appointment Procedure for the Degree of Professor)

1. Content specification of the field (Appointment Procedure for the Degree of Professor)

Name of the university: Comenius University in Bratislava

Seat of the university: Šafárikovo námestie 6, 814 99 Bratislava

University ID: 00397865

Name of the faculty: Faculty of Education

Seat of the faculty: Račianska 59, 813 34 Bratislava

Field of inauguration: field didactics

Valid decision granting rights: decision number: 2015-18766-15A0, app. n. 13,
Date of the decision: 30.10.2015
Text of the decision: granted unlimited in time

content specification: the field in which the Appointment Procedure for the Degree of Professor is run includes systematic knowledge of the phenomena of pedagogical reality, educational processes and their agents, determinants of education and training, as well as knowledge of the ways of analysing pedagogical reality, of pedagogical and didactic approaches and concepts in dealing with diverse pedagogical situations, as well as issues in psychology and social science. At the same time, it reflects the scientific knowledge of the profile content areas and specializations of the field didactics.

The core's main themes are areas of knowledge related to the education system, legal aspects and curricular aspects of the teaching practice, issues of educational inclusion, the development of scientific, cultural and linguistic literacy, the development competences in the areas of teaching methodology and research methodology and the application of diagnostic, intervention and evaluation activities, as well as specific issues of scientific knowledge of the profile content areas and specialisations of the field didactics.

The knowledge, skills and competences of the graduate of the inaugural procedure are a prerequisite for the pedagogically, scientifically or artistically active staff member to be a recognised leader in the relevant field of the inaugural procedure at the university by his/her scientific work and his/her comprehensive scientific work or by his/her artistic works and artistic performances. He/she is capable of supervising doctoral students and other scientific and research teams.

He/she has influenced the development of the field by having established a school of thought or an artistic school or an original generally recognised scientific or artistic group which builds on his published scientific work, discoveries, inventions or artistic creations. He or she is a renowned scholar or artist in the field, and his or her scientific work or artistic creations or artistic achievements have achieved national and international recognition.
