

Outline of the description of the habilitation and inauguration proceedings

1. Definition of the subject of habilitation proceedings and inaugural proceedings

Name of the university: Comenius University Bratislava

University seat: Šafárikovo námestie 6, 814 99 Bratislava

University identification number: 00397865

Faculty name: Faculty of Natural Sciences

Faculty seat: Mlynská dolina, Ilkovičova 6, 842 15 Bratislava 4

Name of the habilitation and inauguration proceedings: Analytical chemistry

Valid decision to grant the rights: Decision number: 2015-18766-15A0

Text of the decision: Granting without any time limitations.

Contents definition:

Chemistry is one of the basic scientific disciplines that plays a primary role in our understanding of material phenomena and our ability to control them. Solving basic and applied chemical problems is of key and strategic importance for man. As a result of the intensive increase in knowledge, chemistry as a whole has already been divided into several areas in the past.

Analytical chemistry is part of a trend oriented towards control systems in various areas of human society. It is closely related to the need for experimental acquisition of true and relevant information about chemical, biochemical and other material systems according to the definition of its content adopted by the WPAC FECS (Working Group for Analytical Chemistry of the Federation of European Chemical Societies) on September 5, 1993: "To develop and apply methods, measuring devices and strategies for obtaining information about the composition and nature of substances in the observed part of reality." Through its activity, it affects, influences and regulates practically all areas of our life (health, new materials and technologies, environment, standards, control quality, etc.). In order to standardize and unify its teaching, the so-called Eurocurriculum on Analytical Chemistry (1993, WPAC FECS). Study programs developed on this basis will facilitate student mobility and mutual recognition of study results between different universities within the EU.

Degree awarded: associate professor (docent, doc.); professor (prof.)

Assignment to the field of study(s): Chemistry

Within the study field of General medicine, the faculty has accredited the following study programs of the 3rd degree:

Analytical Chemistry

Inorganic Chemistry

Biochemistry

Physical Chemistry

Nuclear Chemistry and radiology

Organic Chemistry

2. Staffing of the habilitation and inauguration proceedings

persons responsible for the H&IP:

prof. RNDr. Marián Masár, PhD.

prof. PharmDr. Josef Jampílek, Ph.D.

doc. RNDr. Radoslav Halko, PhD.

doc. RNDr. Róbert Bodor, PhD.

doc. RNDr. Andrea Vojs Staňová, PhD.
