

Outline of the description of the habilitation and inauguration proceedings

1. Definition of the subject of habilitation proceedings and inaugural proceedings

Name of the university: Comenius University Bratislava

University seat: Šafárikovo námestie 6, 814 99 Bratislava

University identification number: 00397865

Faculty name: Faculty of Natural Sciences

Faculty seat: Mlynská dolina, Ilkovičova 6, 842 15 Bratislava 4

Name of the habilitation and inauguration proceedings: Inorganic chemistry

Valid decision to grant the rights:

Decision number:	2021/53:2385-OAC
Text of the decision:	Granting without any time limitations.

Contents definition:

Chemistry is one of the basic scientific disciplines that plays a primary role in our understanding of material phenomena and our ability to control them. Solving basic and applied chemical problems is of key and strategic importance for man. As a result of the intensive increase in knowledge, chemistry as a whole has already been divided into several areas in the past.

One of them is inorganic chemistry. With the increase of new knowledge and above all the demand of the economy for new materials and technologies, the need for deep theoretical study and practical skills is constantly increasing. Professional practice requires solving many problems associated with the application of new substances and materials in new technologies and in various areas of life, and thus requires specialists with a wide range of knowledge about the properties, methods of preparation and structure of substances. It also includes the study of diverse inorganic materials that have significant application possibilities, e.g. high-temperature superconductors, magnetically interesting materials as well as substances with expected biological effectiveness and application in pharmacy. Inorganic chemistry has close relations both with engineering fields (e.g. metallurgy, materials engineering) and with medicine (medicines based on coordination compounds of metal elements).

For current and the next stage of development, a significantly higher need for experts in various chemical fields is expected.

Degree awarded: associate professor (docent, doc.); professor (prof.)

Assignment to the field of study(s): Chemistry

Within the study field of General medicine, the faculty has accredited the following study programs of the 3rd degree:

Analytical Chemistry

Inorganic Chemistry

Biochemistry

Physical Chemistry

Nuclear Chemistry and radiology

Organic Chemistry

2. Staffing of the habilitation and inauguration proceedings

persons responsible for the H&IP:

prof. RNDr. Juraj Bujdák, DrSc.

prof. RNDr. Gustáv Plesch, DrSc.

doc. RNDr. Jozef Tatiersky, PhD.

doc. RNDr. Erik Rakovský, PhD.

doc. RNDr. Eva Viglašová, PhD.
